## 3 Discussion

**Excursion** The group discussed the upcoming visit to Scania in September. It was then discussed where next potential visits could happen and how often. For how often, it was decided that once a year is a good aim to have and it would be ideal to have one visit a semester but this is often unrealistic due to missing connections. Possible future companies to visit discussed were

- Cytiva - no one knew of someone specific to contact so might be difficult
- H&M - Li has a connection but unclear how relevant this would be for the group
- some places the Uppsala SIAM Chapter has been to be for like Forsmark
